Use the Priority Code: HSC3338

****Vascular packages range from \$129 - \$159****

	Trusted by Hospitals Nationwide Life Line Screening has screened over 6 million participants and has partnered with hospitals across the country. Why? Because the ultrasound screenings that we offer can help save your life.
	1 Stroke/Carotid Artery Screening – \$60.00 Ultrasound evaluation of the carotid arteries that screens for buildup of fatty plaque – the leading cause of strokes.
	2 Heart Rhythm Screening (Atrial Fibrillation) – \$60.00 A quick and easy test using EKG electrodes placed on the arms and legs to identify the presence or absence of an irregular heartbeat at the time of the screening.
	3 Abdominal Aortic Aneurysm Screening – \$60.00 Ultrasound is used to screen for the presence of an aneurysm in the abdominal aorta that could lead to a ruptured aortic artery.
	4 Peripheral Arterial Disease Screening – \$60.00 Evaluates for peripheral arterial disease (plaque buildup) in the lower extremities. It is 4-5 times more likely you will die from heart disease if you have peripheral arterial disease.
5 Osteoporosis Risk Assessment – \$35.00 An ultrasound measurement of the heel bone to determine abnormal bone mass density. Osteoporosis is painless and silent in its early stages.
