

THE IMAGING CENTER at HARLINGEN MEDICAL CENTER

Heart Disease Risk Assessment CT Scan

The HeartSaver CT Scan is a 64-slice system that supports the whole-body scanning by generating a minimum of 64 slices per second, reconstructing the heart, arteries, and more, in a matter of seconds.

\$50 *
HeartSaver CT

* Cash price. Radiologist interpretation fee included

Featured Benefits:

- The HeartSaver Ct Scan is the ultimate heart disease risk assessment and only takes about 20-minutes.
- The HeartSaver CT Scan indicates calcium or plaque build-up in the coronary arteries.
- The HeartSaver CT Scan can disclose heart disease, at all stages, making it easier for the physician to treat.
